Introduction to Committee Reports: Marilyn stated that a series of presentations about reports regarding Convention business were next on the agenda. She announced that motions, discussion, and votes on the items would take place on the following day. Clarification questions only are acceptable for today.

Bylaws Committee: Donna Herbst, Chair, was unable to attend the Convention today. Meg Wente, member of committee, gave the report. Two amendments made, 2/3 vote needed to amend. Art 2, section 1, purposes and policies change, came down from National. They ask

that we take out “of citizens” The 2nd change is in Art 5, new section 6, new section is electronic board meetings, meeting can be conducted by e-mail and phone.

Budget Committee: Connie Lee, chair of the Budget Committee, presented the proposed budget. A change in PMP is recommended; that it is to be reduced. Expenses, Part D, on meetings, should add to \$2500 not \$2600. Phone card costs are listed under ‘telephone’. Income, B, education reimbursement, is a large number because of the publishing of the Voters Key. Expenses included under position support are mailing, postage, printing of materials on League Day at the Legislature, and other incidentals.

Nominations Committee: Helen Wright, chair, thanked Joyce Williams, Dee Watkins, Becky Shankland, and Johnnie Aldrich, members of the committee. The proposed state board includes Kathy Campbell, president, Linda Moscarella, vice-president, Bonnie Burn, secretary, and Diane Albert, treasurer. A board of Directors was listed. Nominating committee members were named. Marilyn Morgan asked if there were any other nominations from the floor, none noted.

Action Committee: Delores Watson, and Dick Mason, co-chairs, presented the following report. Areas of focus for the year were campaign finance and ethics, abolishing the death penalty, drug policy, election issues, health care, and natural resources including energy and water..

State Program Committee: The LWVNM program, with current positions, was included in the convention packet. Johnnie Aldrich gave a short presentation on the recommended program changes and stated that the Board recommends retaining all positions unchanged, with the exception of the Legislative Compensation, Election Procedures, Campaign Finance and Ethics Reform, Death Penalty, Drug Policy, Health Care, Education, Public School Finance positions.

Proposed Position Changes: The LWVNM currently has positions on Government, Natural Resources, and Social Policy. Several delegates spoke on the various proposed changes, Legislative Compensation, Election Procedures, and Campaign Finance and Ethics Reform, Death Penalty, Drug Policy, Health Care, Education, Public School Finance. Kathy Campbell spoke on the proposed changes to the LWVNM positions, including Legislative Compensation, Election Procedures, Campaign Finance and Ethics Reform.

Health Care: Dick Mason explained the proposed changes to the Health Care Position. Per direction from the 2005 convention, new words are to be added to the current position, speaking to coverage for all New Mexicans, Effective Cost Management, Improvement of Health Care Quality and Safety, Equitable Financing, and Simplified Administrative.

Drug Policy: Dee Watkins spoke to the change in position on Drug Policy and the change in position on DWI. People need pain management, and that does not mean they are drug addicted. Dee recommends that the DWI position be placed in the Drug Policy position, because the two positions have much in common.

Education: Jane Gaziano spoke to a review for a possible update.

Public School Finance: Jane Gaziano spoke to the proposed change to bring the League’s position in alignment with the new state bureaucracy. The Public Education Department was created by the state during the past 2 years.

Due to completed studies, two new positions are proposed.

Death Penalty: (Interim position, accepted by LWVNM Board 2006). Barbara Calef presented the results of the study. The LWV lobbied to pass a new bill, which passed the House and was hung up in the Senate Judiciary Committee. The Convention delegates will vote on whether to adopt the new position. The state board approved the adoption of an interim position on the Death Penalty.

Sustainability: Kathy Campbell discussed the 2-year study process. Consensus was reached on a broad statement only. The state board decided to create a new category for this position because this position did not fit into the other categories. Noted that Natural Resources has only one position.

Proposed New Studies:

1. **Achieving Fair Representation:** proposed a two-year state study (2007-2009) of Achieving Fair Representation in NM, leading to a consensus for a state position. The study entails the LWV being involved in studying and understanding new systems of voting and representation, prompted by the next census, , and would involve 13 volunteers and a website at www.lwvnm/fair, during the timeframe of 2007-2009, the study group would conduct public meetings, and other outreach methods. The study will involve state and federal level elections and possible re-districting.
2. **Water Supply and Demand:** Barbara Calef proposed a 2-year state study on Water Supply and Demand. 3 objectives include the current state of water in NM, investigate water ownership in NM, and study the values in NM, and the 3rd objective is to investigate the financial situation.
3. **Education:** Jane Gaziano presented a request for possible clarifying or revision to make the Education Position less vague, due to Jane's difficulty in lobbying the past few years. There are several people in Santa Fe already interested in working on this. This sounds like a direction to the Board. This is not a proposal for a new study.

Continuing Activities: The convention recessed for the day. After lunch, Carolie Mullan presented a workshop on immigration. After the workshop, delegates participated in activities. At the evening banquet, Marnie Leverett and Johnnie Aldrich presented "Harry and His Mother."
