CONSTITUTIONAL AMENDMENT 1:  

"PROPOSING AMENDMENTS TO ARTICLE 6 OF THE CONSTITUTION OF NEW MEXICO TO GIVE THE LEGISLATURE AUTHORITY TO PROVIDE FOR APPELLATE JURISDICTION BY STATUTE."  

CONSTITUTIONAL AMENDMENT 2:  

"PROPOSING AN AMENDMENT TO ARTICLE 5 OF THE CONSTITUTION OF NEW MEXICO TO CREATE AN INDEPENDENT STATE ETHICS COMMISSION WITH JURISDICTION TO INVESTIGATE, ADJUDICATE AND ISSUE ADVISORY OPINIONS CONCERNING CIVIL VIOLATIONS OF LAWS GOVERNING ETHICS, STANDARDS OF CONDUCT AND REPORTING REQUIREMENTS AS PROVIDED BY LAW."  

ARGUMENTS FOR Proposed Constitutional Amendment 1  

1. Could save both time and money for parties involved in appeals.  
   Appeals of some lower court decisions would go directly to the court of appeals instead of first going to district courts for intermediate rulings.  
2. Could reduce caseloads in district courts.  
   District courts would benefit from having fewer cases. The public could benefit if district courts resolved cases more quickly by having a reduced caseload.  
3. Would reduce unnecessary layers of appeal conducted at public expense.  
   Currently, some decisions have up to three levels of review, while other decisions with more serious penalties have up to two levels of review. Appeals of lower court decisions on traffic violations and other relatively minor offenses have new trials in district courts before they are allowed in the court of appeals and possibly supreme court. In contrast, appeals of felony criminal cases and other serious offenses go from district court to the court of appeals and possibly the supreme court.  

ARGUMENTS AGAINST Proposed Constitutional Amendment 1  

1. May increase the number of cases in the appellate courts.  
   Adding appeals from lower courts could mean that traditional cases would get less time and fewer resources. Changing the process might not benefit litigants.  
2. May not result in greater court efficiencies and related cost-savings.  
   Many previous attempts by the legislature to establish a state ethics commission failed because of political differences. Once an ethics commission is approved by voters to be in the Constitution, it would take another constitutional amendment to eliminate it.  

ARGUMENTS FOR Proposed Constitutional Amendment 2  

1. New Mexico’s ethics laws are not coordinated now and are inconsistent across agencies.  
   2. NM is one of only 6 states without a state ethics commission.  
   3. A state ethics commission could duplicate efforts to combat unethical behavior already prohibited in law and could be costly.  

ARGUMENTS AGAINST Proposed Constitutional Amendment 2  

1. A constitutional amendment is not necessary to create a state ethics commission. Under existing law, multiple state agencies already have oversight over ethics matters affecting their respective branches of government. Broadening or amending those agencies’ powers or duties to meet any new needs might be more efficient than creating another oversight entity.  
2. Before the commission could function, the legislature would first have to pass laws granting the commission its powers and duties and setting the qualifications and terms of the commissioners.  
3. A state ethics commission could duplicate efforts to combat unethical behavior already prohibited in law and could be costly. There have been several successful prosecutions of public officers and employees for violating laws governing ethics enforcement. Improving current laws and enforcement procedures could be accomplished without the expense of creating a whole new agency.
**2018 General Obligation Bonds and Taxes**

A bond represents a debt for money borrowed by a government to finance capital improvement projects. The State of New Mexico promises to repay the amount borrowed, plus interest, over a period of time for each General Obligation bond that is approved by voters. The bonds are called “General Obligation” because payment of the debt service (principal plus interest) is a general obligation of the State, and its property owners through property taxation. According to the Board of Finance Division of the NM Department of Finance and Administration, the specific amount of property taxes collected in a given year is attributable to a number of factors, including the amount of debt service required for existing general obligation bonds, the projected debt service required for the new bond issue, the latest assessed valuation of taxable property, cash balances in bond debt service accounts, the date of issuance, and the actual interest rate obtained on the bond sale. Based on the assumption that all four bond issues will be passed by voters, the property tax year 2018 mil levy has been set at 1.36 mils, which is the same as the 2016 and 2017 rates. The State Board of Finance estimates that over a ten-year period, the four issues on the ballot would cost approximately $8.91 per $100,000 of asset value. Of the annual average $8.91, Bond Issue A accounts for $0.58, Bond Issue B accounts for $0.89, Bond Issue C accounts for $0.33, and Bond Issue D accounts for $7.31.

**2018 Capital Projects General Obligation Bond Act**

The New Mexico Legislature passed the 2018 Capital Projects General Obligation Bond Act detailing projects that would be funded by these bonds. No bonds will be issued or sold under the act until the state’s registered voters have voted upon and approved the bonds. Each bond is voted upon separately with a “For” or “Against” question.

**Summary:** The four 2018 bond issues ask for voter approval to issue general obligation bonds as follows:

- **Bond Issue A,** in an amount not to exceed $10,770,000 to make capital expenditures for certain senior citizen facility improvements, construction, and equipment acquisition projects.
- **Bond Issue B,** in an amount not to exceed $12,876,000 to make capital expenditures for academic, public school, tribal, and public library resource acquisitions.
- **Bond Issue C,** in an amount not to exceed $6,137,000 to make capital expenditures for the purchase of school buses; and
- **Bond Issue D,** in an amount not to exceed $136,230,000 to make capital expenditures for certain higher education, special schools and tribal schools capital improvements and acquisitions.

The total for all four questions, including bond issuance costs, is $166,013,000. A complete breakdown of the designated projects under each bond issue can be found on the New Mexico Legislature’s website: [https://nmlegis.gov/Sessions/18%20Regular/final/SB0094.pdf](https://nmlegis.gov/Sessions/18%20Regular/final/SB0094.pdf)
