Constitutional Amendment 1: .......................... "PROPOSING AMENDMENTS TO ARTICLE 6 OF THE CONSTITUTION OF NEW MEXICO TO GIVE THE LEGISLATURE AUTHORITY TO PROVIDE FOR APPELLATE JURISDICTION BY STATUTE."

Constitutional Amendment 2: .......................... "PROPOSING AN AMENDMENT TO ARTICLE 5 OF THE CONSTITUTION OF NEW MEXICO TO CREATE AN INDEPENDENT STATE ETHICS COMMISSION WITH JURISDICTION TO INVESTIGATE, ADJUDICATE AND ISSUE ADVISORY OPINIONS CONCERNING CIVIL VIOLATIONS OF LAWS GOVERNING ETHICS, STANDARDS OF CONDUCT AND REPORTING REQUIREMENTS AS PROVIDED BY LAW."

Analysis

The NM Legislature is asking voters to approve two amendments to the NM Constitution that they passed through joint resolutions this spring. The League has condensed the material provided by the NM Legislative Council Service (LCS) staff, which has no opinion on the proposals. Below are summaries of each proposed amendment and some of the possible arguments for and against. The LCS makes no claim for the validity or consistency of the arguments presented, nor does the League. Find the full LCS analysis here: https://www.nmlegis.gov/Publications/New_Mexico_State_Government/Constitutional_Amendment/Constitutional_Amendments_2018.pdf

Constitutional Amendment 1 proposes to allow the legislature to change the processes of appealing court decisions by enactment of a state statute. Currently the NM Constitution requires appeals of probate, magistrate and metropolitan court rulings to be decided initially by a district court before going to the court of appeals. A constitutional amendment would be needed to currently change that appeals process.

ARGUMENTS FOR Proposed Constitutional Amendment 1

1. Could save both time and money for parties involved in appeals.
2. Could reduce caseloads in district courts.
3. Would benefit from having fewer cases. The public could benefit if district courts resolved cases more quickly by having a reduced caseload.
4. Would reduce unnecessary layers of appeal conducted at public expense.

Current issues have three levels of review, while other decisions with more serious penalties have up to two levels of review. Appeals of lower court decisions on traffic violations and other relatively minor offenses have new trials in district courts before they are allowed in the court of appeals and possibly supreme court. In contrast, appeals of felony criminal cases and other serious offenses go from district court to the court of appeals and possibly supreme court. In contrast, appeals of felony criminal cases and other serious offenses go from district court to the court of appeals and possibly supreme court.

ARGUMENTS AGAINST Proposed Constitutional Amendment 1

1. May increase the number of cases in the appellate courts.
2. May not result in greater court efficiencies and related cost-savings.
3. District courts may be best suited to establish a record for review.

Constitutional Amendment 2 proposes to establish a state ethics commission with authority as provided by law over state officers and employees of the executive and legislative branches; candidates or other participants in elections; lobbyists; government contractors or seekers of government contracts; and possibly other areas. The commission would also issue advisory opinions concerning standards of ethical conduct.

ARGUMENTS AGAINST Proposed Constitutional Amendment 2

1. New Mexico’s ethics laws are not coordinated now and are inconsistent across agencies.
2. NM is one of only 6 states without a state ethics commission.
3. A constitutional amendment is not necessary to create a state ethics commission.

ARGUMENTS FOR Proposed Constitutional Amendment 2

1. New Mexico’s ethics laws are not coordinated now and are inconsistent across agencies.
2. NM is one of only 6 states without a state ethics commission.
3. Establishing an ethics commission in the Constitution of New Mexico makes it more permanent than if it were created in statute.
4. Many previous attempts by the legislature to establish a state ethics commission have failed because of political differences. Once an ethics commission is approved by voters to be in the Constitution, it would take another constitutional amendment to eliminate it.
5. A constitutional amendment is necessary to establish an ethics commission. Under existing law, multiple state agencies already have oversight over ethics matters affecting their respective branches of government. Broadening or amending those agencies’ powers or duties to meet any unmet needs might be more efficient than creating another oversight entity.
6. Before the commission could function, the legislature would first have to pass laws granting the commission its powers and duties and setting the qualifications and terms of the commissioners.
7. Establishing an ethics commission could duplicate efforts to combat unethical behavior already prohibited in law and could be costly. There have been several successful prosecutions of public officers and employees for violating laws governing ethical conduct. Improving current laws and enforcement procedures could be accomplished without the expense of creating a whole new agency.

PROPOSED CONSTITUTIONAL AMENDMENTS

SECTION 1. It is proposed to amend Article 5 of the constitution of New Mexico by adding a new section to read: "A. The "state ethics commission" is established as an independent state agency under the direction of three commissioners, no more than three of whom may be members of the same political party, whose terms and qualifications shall be as provided by law. The governor shall appoint one commissioner. One commissioner each shall be appointed by the president pro tempore of the senate, the minority floor leader of the senate, the speaker of the house of representatives and the minority floor leader of the house of representatives, all as certified by the chief clerks of the respective chambers. Two commissioners, who shall not be members of the same political party, shall be appointed by the four legislatively appointed commissioners.

B. The state ethics commission may initiate, receive, investigate and adjudicate complaints alleging violations of state ethics laws and standards of conduct, and may issue advisory opinions concerning standards of ethical conduct.

C. The state ethics commission may request the attendance of witnesses or the production of records and other evidence relevant to an investigation by subpoena as provided by law and shall have such other powers and duties and administer or enforce such other acts as further provided by law."

SECTION 2. The amendment proposed by this resolution shall be submitted to the people for their approval or rejection at the next general election or at any special election prior to that date that may be called for that purpose.

Constitutional Amendment 2 proposes establishing a state ethics commission with authority as provided by law over state officers and employees of the executive and legislative branches; candidates or other participants in elections; lobbyists; government contractors or seekers of government contracts, and possibly other areas. The commission would be empowered to require witnesses to appear or individuals to submit records and relevant evidence. The seven-member commission would also issue advisory opinions concerning standards of ethical conduct.

ARGUMENTS AGAINST Proposed Constitutional Amendment 2

1. New Mexico’s ethics laws are not coordinated now and are inconsistent across agencies.
2. NM is one of only 6 states without a state ethics commission.
3. Establishing an ethics commission in the Constitution of New Mexico makes it more permanent than if it were created in statute.
4. Many previous attempts by the legislature to establish a state ethics commission have failed because of political differences. Once an ethics commission is approved by voters to be in the Constitution, it would take another constitutional amendment to eliminate it.
5. A constitutional amendment is not necessary to create a state ethics commission. Under existing law, multiple state agencies already have oversight over ethics matters affecting their respective branches of government. Broadening or amending those agencies’ powers or duties to meet any unmet needs might be more efficient than creating another oversight entity.
6. Before the commission could function, the legislature would first have to pass laws granting the commission its powers and duties and setting the qualifications and terms of the commissioners.
7. Establishing an ethics commission could duplicate efforts to combat unethical behavior already prohibited in law and could be costly. There have been several successful prosecutions of public officers and employees for violating laws governing ethical conduct. Improving current laws and enforcement procedures could be accomplished without the expense of creating a whole new agency.
STATE BOND QUESTIONS

2018 General Obligation Bonds and Taxes

A bond represents a debt for money borrowed by a government to finance capital improvement projects. The State of New Mexico promises to repay the amount borrowed, plus interest, over a period of time for each General Obligation bond that is approved by voters. The bonds are called “General Obligation” because payment of the debt service (principal plus interest) is a general obligation of the State and its property owners through property taxation. According to the Board of Finance Division of the NM Department of Finance and Administration, the specific amount of property taxes collected in a given year is attributable to a number of factors, including the amount of debt service required for existing general obligation bonds, the projected debt service required for the new bond issue, the latest assessed valuation of net taxable property, cash balances in bond debt service accounts, the date of issuance, and the actual interest rate obtained on the bond sale. Based on the assumption that all four bond issues will be passed by voters, the property tax year 2018 mil levy has been set at 1.36 mils, which is the same as the 2016 and 2017 rates. The State Board of Finance estimates that over a ten-year period, the four issues on the ballot would cost approximately $8.91 per $100,000 of asset value. Of the annual average $8.91, Bond Issue A accounts for $0.58, Bond Issue B accounts for $0.69, Bond Issue C accounts for $0.33, and Bond Issue D accounts for $7.31.

2018 Capital Projects General Obligation Bond Act

The New Mexico Legislature passed the 2018 Capital Projects General Obligation Bond Act detailing projects that would be funded by these bonds. No bonds will be issued or sold under the act until the state’s registered voters have voted upon and approved the bonds. Each bond is voted upon separately with a “For” or “Against” question.

**Summary:** The four 2018 bond issues ask for voter approval to issue general obligation bonds as follows:

- **Bond Issue A**, in an amount not to exceed $10,770,000 to make capital expenditures for certain senior citizen facility improvements, construction, and equipment acquisition projects;
- **Bond Issue B**, in an amount not to exceed $12,876,000 to make capital expenditures for academic, public school, tribal, and public library resource acquisitions;
- **Bond Issue C**, in an amount not to exceed $6,137,000 to make capital expenditures for the purchase of school buses; and
- **Bond Issue D**, in an amount not to exceed $136,230,000 to make capital expenditures for certain higher education, special schools and tribal schools capital improvements and acquisitions.

The total for all four questions, including bond issuance costs, is $166,013,000. A complete breakdown of the designated projects under each bond issue can be found on the New Mexico Legislature’s website: [https://nmlegis.gov/Sessions/18%20Regular/final/SB0094.pdf](https://nmlegis.gov/Sessions/18%20Regular/final/SB0094.pdf)
